

Circular Ljubljana

Department for Environmental Protection
Zala Strojin Božič, M.Sc.
Circular economy manager

Ljubljana

Green areas = $\frac{3}{4}$ of the city's surface

542 m² public green areas per inhabitant

4 landscape parks (13,8 % city's surface)

1.200 ha of special-purpose forest

20 % of the city's area has a nature protection status

Natura 2000 areas: 16,5 %

Vision 2025 (2007)

Ideal City

In the future Ljubljana will preserve the character of an agreeable green city, its dimension and convenient living standards will make it a nice place to live in.

Metropolis

The city will grant high living standards, security and tolerance. The city, opened widely for foreign investors and experts, will gradually acquire the cosmopolitan character and image.

Environmentally friendly city

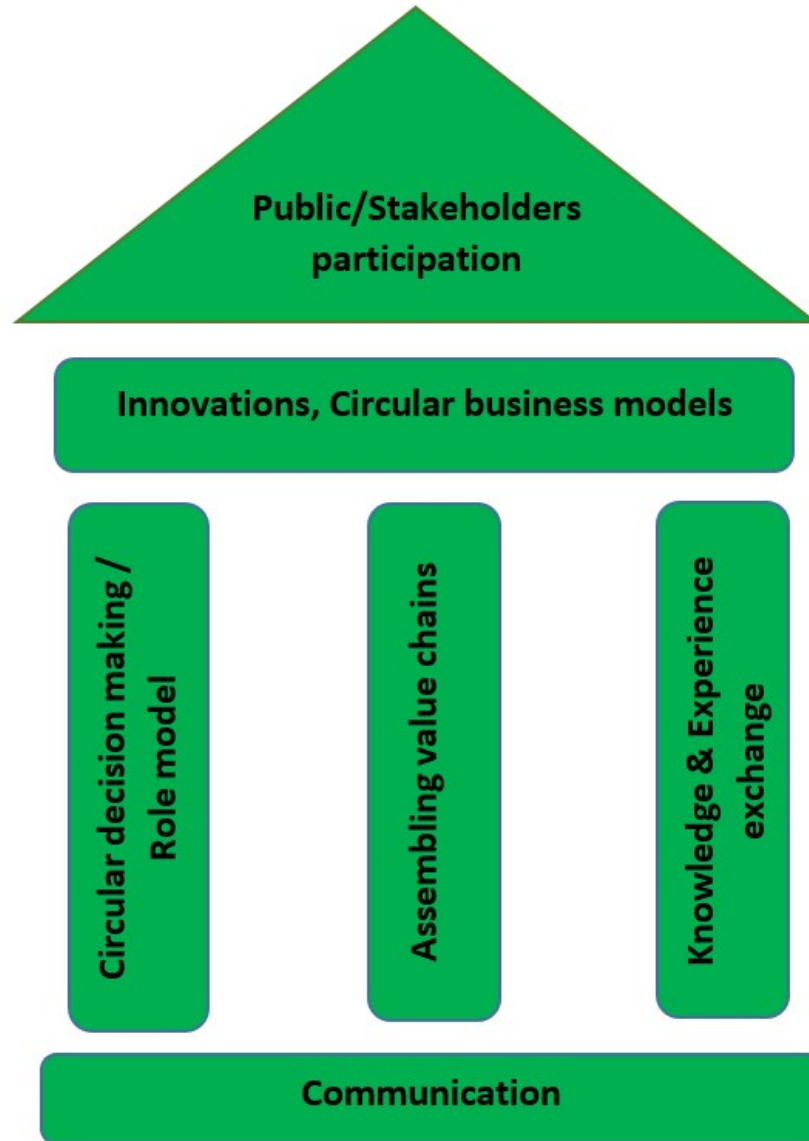

Sustainable development considers an option of a direct access to the open space as well as the integration of the city into the landscape system.

PROVIDING BEST SERVICE

IMPROVING QUALITY OF LIVING

Transition to circular economy

Role model

2019: E-questionnaire for Youth in Ljubljana on what the City administration should focus more in the future

Priority areas:

- public transport
- educational system
- local & ecological food production
- sustainable shopping

Role model

2020: E-questionnaire for City administration employees on sustainability and circular economy

50% of employees opened the questionnaire, but only 25 % of all employees filled in the questionnaire

Out of 25%:

75% of employees think that sustainable development and circular economy are important development topic for Ljubljana

40% of employees have heard of circular economy, but do not know the details

Role model

Green decision code for City administration employees:

1. We are aware of our impact on the environment and society and we act transparently
2. We strengthen cooperation
3. Health is our greatest value
4. Digital instead of physical
5. Innovations and new circular business models
6. Natural resources are limited
7. Old = New
8. We support the local environment
9. We reduce the amount of waste
10. Biodiversity

Role model

Guidebook on sustainable and circular everyday decisions

- Definition of CE
- Explanation of 10 principles
- Interesting facts
- What can I do?
- Good practices
- Performance indicators

Priročnik za sprejemanje trajnostnih in krožnih vsakodnevnih odločitev

(priloga Kodeksa o krožnem in trajnostnem poslovanju
mestne uprave Mestne občine Ljubljana)

L J U B L J A N A
N A P O T I V K R O Ž N O
G O S P O D A R S T V O
